## MISSION STATEMENT

As a UI/UX Designer who loves to continually grow within my field, and even in other fields, I am repetitively mastering my craft so that I may broaden my understanding of business, consumers and product management.

Someday, I would love to oversee an entire project as the Lead Product Designer due to my passion of team building and innovational thinking strategies.

## EDUCATION

COURSE	SCHOOL	COMPLETION DATE
Product Management Fundamentals	RMIT (Online)	11th November, 2022

Fitness Instructor (Part-Time)	EuroTech FA (Blackpool, England)	Nov, 2015 - Sep, 2016

## SKILLS

### SOFT SKILLS

- Quick Learner
- Time Management
- An ability to communicate thought processes & detailed design decisions
- Multitasking different projects with varying levels of urgency and deadlines
- A desire to learn new and exciting technologies

### HARD SKILLS

- Figma
- Front End Development (HTML5, CSS3, Vanilla JS + Frameworks)
- Adobe Creative Suite (Illustrator, After Effects, Premiere Pro)
- Microsoft Office (Word, PowerPoint, Excel)
- 3D Design (Spline, Blender)

## OTHER

I have spent an enormous amount of time teaching myself many design and development software in a range of mediums, as well as working freelance off and on for the past few years.

This has allowed me to have a broad view and a deep understanding of the workflow associated with bringing a product from **idea to market**, while being able to focus on time, resource and budget constraints of the client.
